

REY RIDALIN

-BIOGRAPHY-

"The odds are a million to one but I'm one in a million". These are the words of a man that never gave up on his dreams and stayed focused on one goal and that is to entertain the world. This man is Rey Ridalin. Born in New Jersey and raised in Brooklyn, New York since he was four, Rey had dealt with many obstacles growing up but with hard work and dedication, Rey has developed into a rare hybrid talent of rapper, singer, song-writer, producer, and entertainer all in one; fusing various styles of hip hop, club and pop music. Building his music credentials everyday by licensing his music to Viacom, which is the parent company of MTV and VH1. His music has been heard on many popular shows from MTV Cribs, True Life, Sweet 16, Making the Band, and Diary along with MTV specials for Eminem, 50 Cent, Fat Joe, and Shakira. Rey is now ready to take that next step in his journey. All he is set on now is making a difference in the world.
